

Getting to Know You

Key Stage 2

Unit 1

Unit Introduction

Getting to Know You

In this unit, the children will learn how to say hello, to ask how someone is, and to say how they are in three different ways. They will learn six basic classroom instructions, and how to respond when they hear these instructions. They will learn simple sentences to identify themselves, giving their name, their sex, and their size. Grammatically, they will learn how to make the negative form of such simple statements in Spanish and begin to form negative sentences themselves. They will begin to recognise Spanish numbers 1-5. Designed for beginners, this unit intentionally exposes the learner to very little text, relying instead on sounds to convey the sense of the language. In this way, children will get some grounding in the natural phonics of the Spanish language without any confusion with their growing understanding of English phonics. They will develop a basis on which to build the sound-spelling link at a later date.
